Use our Home 2 Home Placement program:

This program allows you to keep your pet in your home until adoption. We will advertise your pet at the shelter, on our website (viewed by many local adopters daily!) and Facebook page and help you find a great match for your pet. This program is great because it helps you find your pet a home, it allows you to be involved in the placement of your pet, and your pet stays out of the shelter environment. This program is very successful and many pets are adopted quickly.
